MEMORANDUM – OFFICE OF THE TOWN ADMINISTRATOR

TO: All Interested Parties

FROM: Carter Terenzini, Town Administrator

RE: Code Red

DATE: February 8, 2013

CC: D. Bengtson

HAVE YOU SIGNED UP FOR CODE RED?

CodeRED is the Community Notification System that we use as our primary means to notify you of important news such as a closure of Town facilities, the opening of any warming shelters, and the like leading up to and during storms and emergency events such as the current Nor'easter.

If you have not signed up yet there is still time to do so on-line. Please Click Here to go to the page with all the answers to your questions and the enrollment form.

If you know someone who cannot sign up on line please encourage them to get the enrollment forms at Town Hall or the Public Safety Building sometime **after** this storm has passed. During the event all personnel will be occupied with our storm planning and response.

Your Storm Planning!

We encourage you to be prepared to possibly be snow bound and endure electrical outages.

- Stay off the roadways unless travel is truly needed;
- Avoid the use of any auxiliary heating source that is not properly vented to the exterior of the house;
- Take care with generators making sure they do not exhaust inside a building or near any fresh air intake for a living space;
- Have flashlights & extra batteries;
- Have extra blankets and dress in layers for warmth;
- Move food in refrigerators and freezers closest together to maintain cold temperatures for longest periods of time and avoid unnecessary opening/closing;
- Have some meals pre-planned that do not require cooking; and
- Top off vehicle fuel supplies.

Do not touch any downed wires! Please call all such events into 911.

You never know if a wire has live current so please avoid them all!
