Moultonborough's Town Administrator Resigns

The Moultonborough Board of Selectmen has announced that its Town Administrator, Mr. Carter Terenzini, has resigned his position effective with the close of business on April 1, 2015. Mr. Tolman said that "The Board thanks Carter for his dedicated and passionate service to the community during his 7 years as Town Administrator. We appreciate the depth of his knowledge and skill set and recognize the many contributions he has made to the Town, from successfully leading us through our first negotiation, unionization and collective bargaining agreement to helping the Town to establish neighborhood input meetings and standards of practice for public works projects. During his tenure, Moultonborough was able to institute an affordable, quality health insurance plan for the benefit of our employees, all while still saving the Town over \$200,000 per year. Carter also partnered with community stake holders to reduce areas of deficit, particularly in the Visiting Nurse Services. For this we are grateful."

Mr. Terenzini's resignation comes in response to a philosophical shift of the SelectBoard as to the role of the Town Administrator's position in the operations of the Town. Mr. Tolman said that Mr. Terenzini recognized the possible disruption to the employees, volunteers and organization by continuing in the employ of the Town without the support of the full Board membership and decided to resign in the best interest of the community.

The future of the position – and any interim filling of it - will be the subject of upcoming SelectBoard discussions.
