

DRAFT STATES LANDING BEACH & PARK PRIORITIES
From Design Work Session held Wednesday, December 9, 2015 at 6pm.

1. Storm water quality/erosion control measures (bio-retention, infiltration & rain gardens, etc.)
 - 2a. Dredging (how often will it need to be done?)
 - 2b. Beach
 - 3a. Adequate parking (but not in the park) and Road Improvements
 - 3b. Boat launch/dock (discussion on adding 2-boat, one-sided dock next to ramp)
4. Park recreation amenities
(Individual elements still need to be prioritized and grouped)
 - Ground smoothing/grading & landscaping
 - Signage
 - Picnic tables
 - Barbeques
 - Shelter structure
 - Playground
 - Trail system
 - Volleyball
 - Horseshoe pits
