ELECTRICAL PERMIT INFORMATION:

1. All electrical services larger than 200 amp, single phase and all services that are 3 phase require a site plan and floor plan showing locations of pedestal mounts, meter locations, service disconnects, and distribution panels as applicable. A distribution line diagram showing type and sizing of all main disconnects must be provided.
2. Generator Installations require a site plan and floor plan showing location of generator, disconnects, transfer switches, and service equipment. A line diagram showing sizing of all new and existing equipment, conductors, and overcurrent devices must be provided.
